CCSP®: Cloud Security

Course Overview
As more data and services are pushed to the cloud, learn about how to set up, secure, and manage your cloud services. The Certified Cloud Security Professional® (CCSP) certification from (ISC)² shows you have the skills to design, manage and secure these increasingly-important services.

Course Schedule and Format
Classes usually meet for one week, M-F 8 a.m.-4 p.m. Classes may be offered in a live online or in-person format. For current schedule, see: https://ce.arizona.edu/classes/ccsp-cloud-security

Course Outline
Classes include four days of cloud security training with a fifth day of dedicated exam review for the (ISC)2 CCSP exam.

We make every effort to meet individual learners' training needs, so topics covered in a particular class are subject to change.

Course Materials
All materials are included in course cost.

Certification
This course prepares students to take the Certified Cloud Security Professional® (CCSP) exam.

Exam Costs
Exam cost is not included in course cost. Exam cost and scheduling information can be found here: https://www.isc2.org/Register-for-Exam/ISC2-Exam-Pricing
